SECRETARY'S REPORT.

In this report I have endeavored to gather such statistics as would be most interesting to members of the Class, and have in general followed the plan adopted by my predecessors. Some of the desired information I was unable to obtain before the Class separated, and, in consequence, deferred the publication until the present time.

I would take this opportunity to again impress upon you the importance of writing to the Secretary at least once each year, and would suggest that such communications be sent before June 1, that a full and accurate record of the Class may be rendered on each Commencement.

It is necessary to remind some of you that the first instalment of the Class Fund was due on Commencement, and I most earnestly desire that all unpaid subscriptions to the Fund be settled immediately, as it is greatly for the interest of the Class to have the money invested as soon as possible. The first instalment to the Class Subscription Fund, I may add, is due on the 1st of June, 1875.

It is unnecessary to dwell on the career of the Class throughout the College course, and its record is certainly one of which we should feel proud.

My address is "Cambridge, Mass." I shall always be most ready and happy to give any information on class matters in my power. All class notices will be published in the "Boston Advertiser," "Globe," and "Transcript."

Since the introduction of the elective system, and the consequent alteration in the style of publication of the Rank List, a comparison with some of the preceding Classes must be an unfair criterion of the rank of the Class.

MEASUREMENTS OF CLASS.

Through the kindness of Gen. Lister, I have been enabled to obtain the measurements of one hundred and eighteen members of the Class, from which the following averages have been calculated. The chest is measured when inflated, and the measurement of the upper and fore arm is by the longer measurement. The figures, for this reason, may seem unusually large.

I desire, before closing this report, to thank most heartily those members of the Class who have responded so willingly to my numerous and often troublesome demands; and I feel confident that all those who have not acceded graciously or promptly to my requests will in the future realize that it is impossible for one person to satisfactorily perform the duties of Secretary unless with the co-operation of the whole Class.

Wishing you all a happy and successful career through life, and that the bond which has united us in College may bind us together even more firmly in the future, I remain most sincerely,

Your friend and classmate,

GEORGE P. SANGER, Jr.
